The three buttons are for the front page of the website. Each one serves as a link to a different page. The client asked to the Donate image to be larger than the rest. The larger image is a graphic that accompanied an article about how Generation X should plan for retirement.

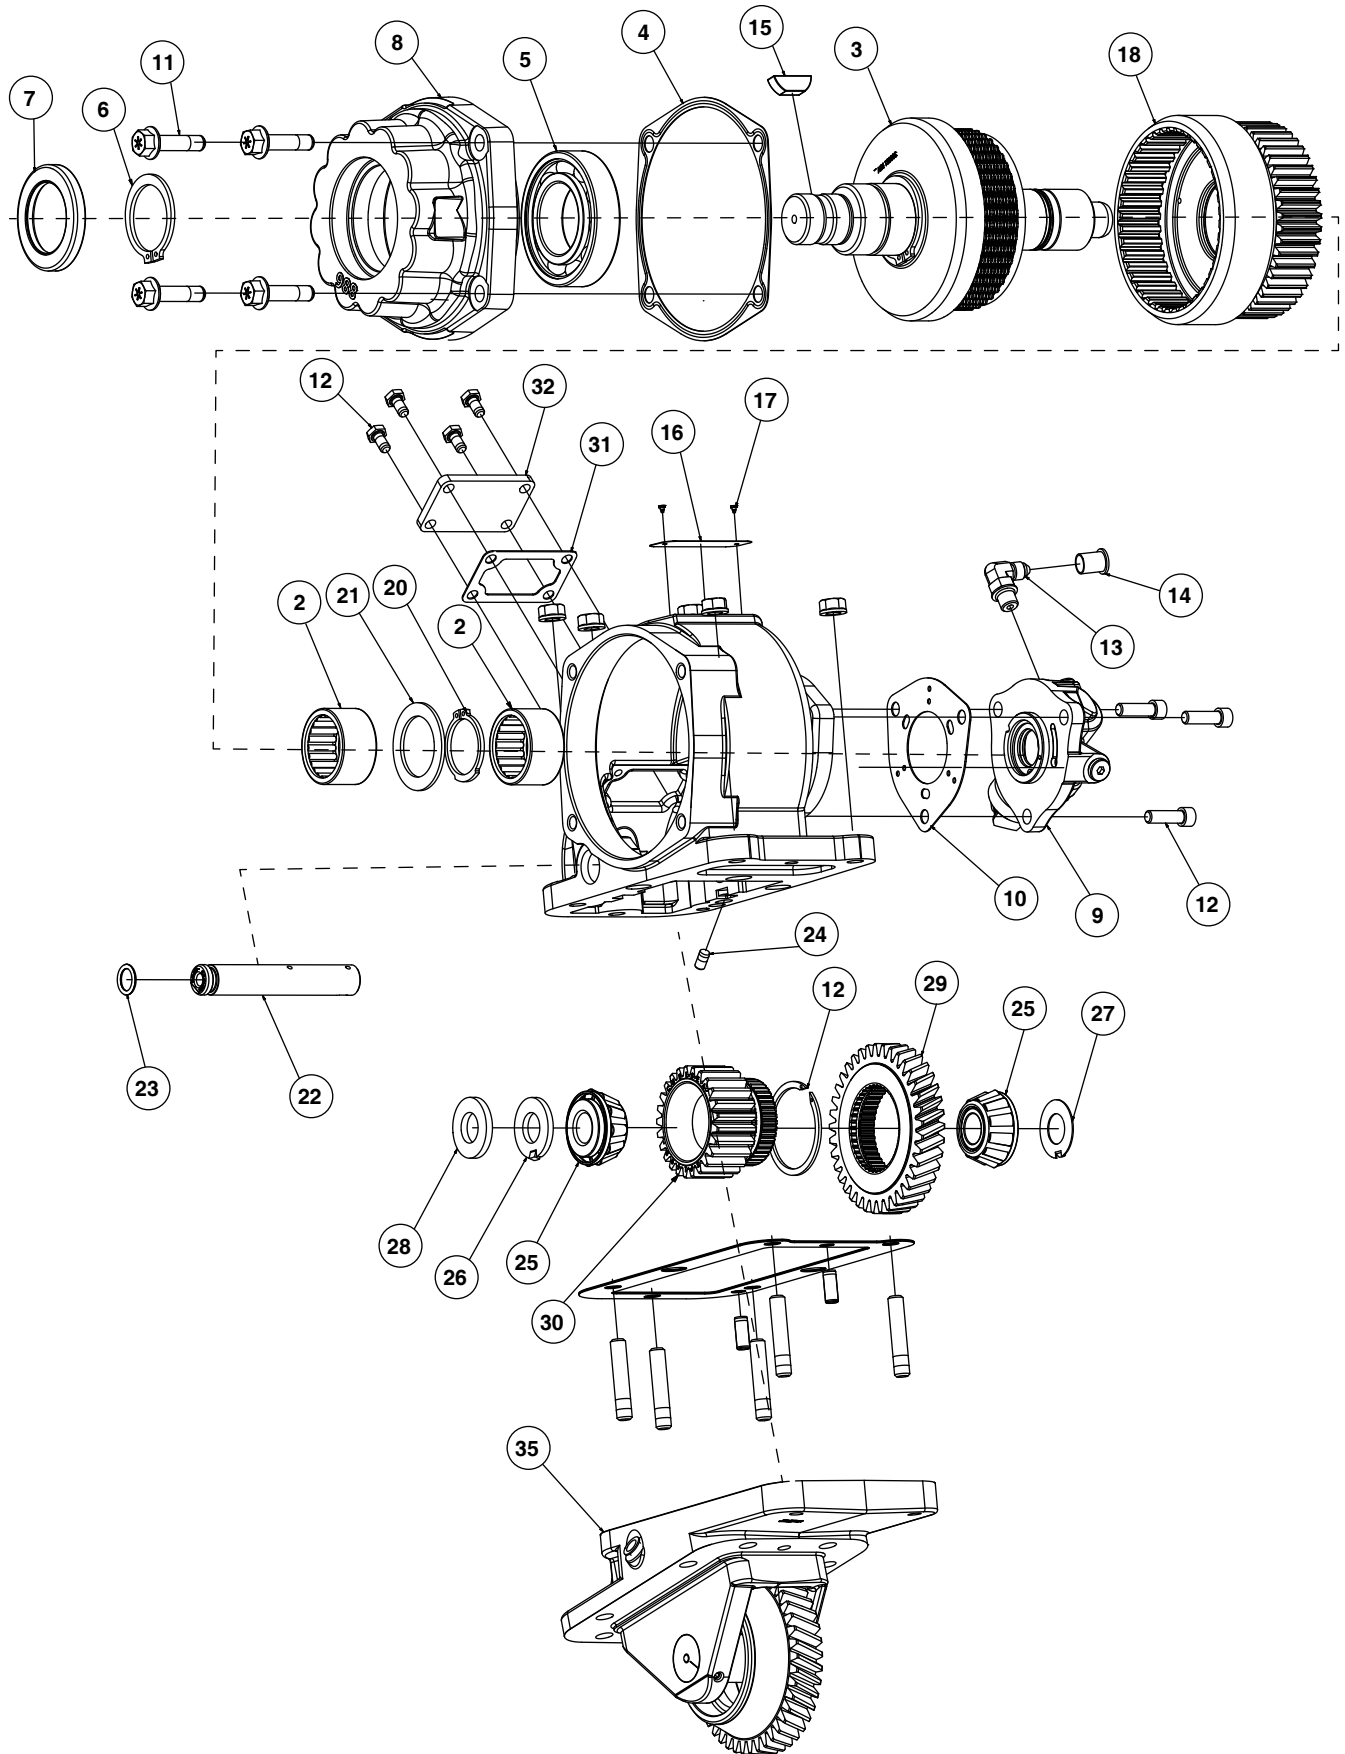

Freelance Design

I designed this flyer for a local artist. She supplied the pictures and text. I made an earlier rendition to discuss with her before making this final version entirely in InDesign.

Beluska Graphics Inc.

I used Illustrator to break apart to original design to fit it for the 8 1/2 x 11 format. I also included the dashed lines to show how the pieces go together. I then placed the numbers for the parts list. This was challenging because the numbers could not change size while the drawing was now smaller.

Artomatic

These are works of mine that were displayed at the 2025 Artomatic Exhibition in Toledo, OH.

This was designed for the Costco in Toledo Ohio. They made a newsletter that was about this store specifically. I designed the cover for it in Illustrator.
